THE CHALLENGE

All businesses face challenges when it comes to training large volumes of staff members. For McCarthy Insurance Group, these challenges included:

- Training over 185 staff members across 21 locations
- Offering 40 different types of insurance products and ensuring product knowledge across branches
- Ensuring standardised procedures across branches
- Ensuring service level performance across branches
- Assigning, tracking and capturing results
- Having records that employees have read and understood the training content
- Accurately storing employee training records on file

Because of these challenges faced, McCarthy Insurance Group needed a solution to streamline their training processes.

THE SOLUTION

In 2016 McCarthy Insurance implemented SeamsCloud LMS, an online training platform across their business, which allows them to train all staff in all departments, remotely and quickly.

Implementing SeamsCloud allowed them to:

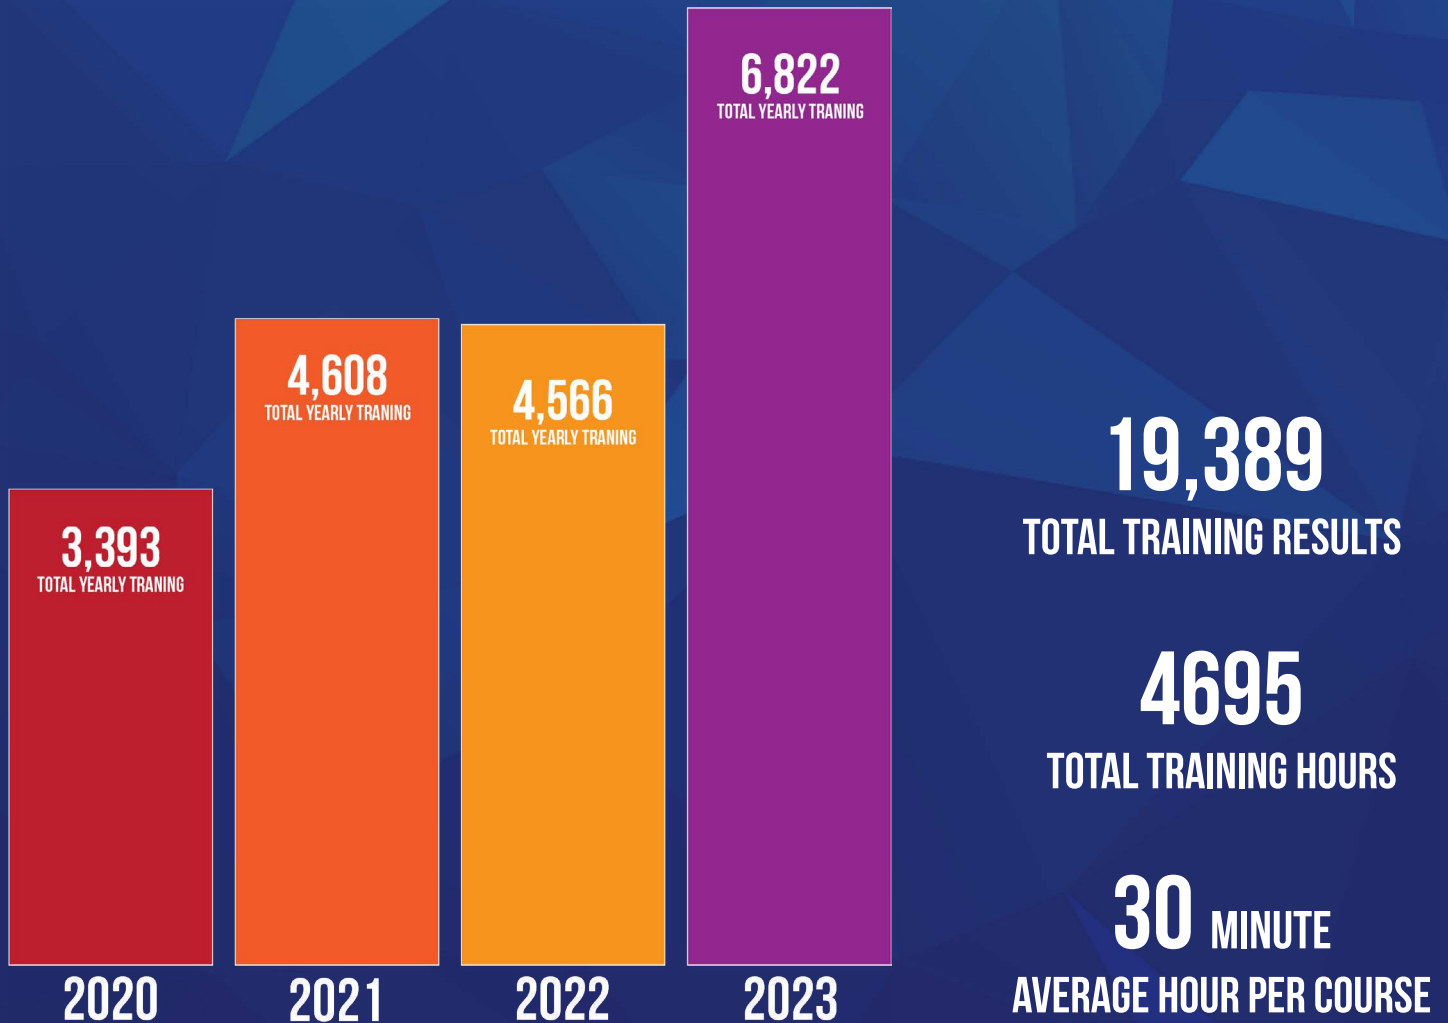

- Assign the relevant training courses and auto send an email notification about any pending training.
- Read and tick checkboxes confirm that employees have read the documentation.
- Quiz questions at the end of training to validate learning.
- Assign, track and record each employees interactions.
- Deliver company-specific training content across multiple locations to standardise the customer experience.
- Same training content to ensure the quality of learning.

THE SUCCESS

SeamsCloud LMS has provided MCCarthy Insurance Group with the tools they need to seamlessly deliver powerful training courses to their staff members, in a short period of time. With over 11,000 training courses completed, and almost 5,000 training hours used, their training programme is now of world-class standard.

Compliance records are available for any training/audit purposes at the touch of a button. It really has revolutionised their internal training practices.
